Consortium PSYCHIATRICUM

Consortium Psychiatricum is an international peer-reviewed open access scientific journal founded by the Russian Society of Psychiatrists and the Russian Association for the Advancement of Science in spring 2020.

Consortium Psychiatricum journal aims to become an international platform for interdisciplinary cooperation and exchange between mental health professionals. Journals' mission is to promote different views on mental health issues presented by specialists from all over the world – from different scientific, clinical and cultural backgrounds.

All issues of the journal have open access and are available on the Consortium Pshychiatricum web site <https://www.consortium-psy.com/> . The printed version is distributed to the members of the editorial board, authors, psychiatric associations of Europe, China and Japan and to all research institutes and university psychiatry departments in Russia.

Manuscripts can be submitted free of charge through the journals' website in English or Russian.

Consortium Psychiatricum publishes papers on psychiatry, clinical psychology, psychotherapy, public mental health, epidemiology of mental disorders, basic research and neuroscience, interdisciplinary research. Original research articles, reviews, concepts, comments, short messages and case reports are considered for the publication.
